All rates in USD. Data is charged in increments of 1MB. * A surcharge may apply to call and text certain countries, refer to the website for a full list of countries and rates.

- You may be required to purchase a PLAN to activate
- You will receive a +1 US number and +44 Global phone number when your SIM is activated. Your family and friends will be able to contact you using either number

1. ACTIVATE YOUR SIM CARD

A) IN THE USA - Your SIM Card will be automatically activated when your phone registers with an available network.

B) OUTSIDE THE USA - Manually activate your SIM Card before arriving in the US**

- 1) Visit www.rechargeminutes.com or open the **JT TravelApp** (download free from the App store or Google Play)

- 2) Enter the SERIAL CODE printed on your SIM card

SERIAL CODE

** Depending on the plan you choose, **your service expires in 14 or 30 days from activation**. We advise you to activate the SIM and add a plan a few days before departure to ensure your service is good to use when you arrive in the USA. This will also allow you to stay in touch with family and friends whilst in transit.

2. SETUP YOUR DEVICE

- 1) Ensure your device is unlocked and works with any of these frequencies: 3G (850 MHz, 1900 MHz) 4G (700MHz, 850MHz, 1900MHz, 1700/2100MHz, 2300 MHz). Refer to ekit.com/ekit/UserGuide for more information
- 2) Choose the correct SIM size required for your device and push it out from the plastic card
- 3) Turn off your device and insert the SIM in the SIM slot or tray
- 4) Turn your device on. Once connected to a network, set up data using instructions provided in this user guide (Refer 'Setting up data and internet'). **You are good to go!**

3. ACCESS & MANAGE YOUR ACCOUNT

Use the **JT TravelApp** (jttravelapp.com) or visit **rechargeminutes.com** to manage your account:

Log in using your +1 US phone number or +44 Global phone number and PIN

- Add or recharge a plan or international credit
- Review your balance, usage and receipts
- Check latest information on coverage and rates

 You can also add credit by calling **181** from your device (free of charge) or by calling our 24/7 Customer Service (charges may apply).

4. USING THE SERVICE

Turn your device on and when the device registers with a network it is ready for use.

MAKING A CALL

Dial:

+ **country code** **area code** **phone number**

Example: To call (213) 337-5555 in the US, you need to dial:

+ **1** **213** **3375555**

Please note, you must dial the country code even if you are making a local or national call and drop the leading zero if the number you are calling has one.

SENDING A TEXT MESSAGE

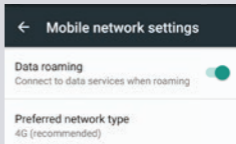

Compose your message as normal, entering the number you wish to send the message to, remembering to include the country code and area code. Refer to step 1 on Making a Call (above) for instructions on how to dial a number.

SETTING UP DATA AND INTERNET

Android devices

1. Select **Settings > Wireless & Networks > More > Mobile (or Cellular) networks**

2. Switch on **Data roaming**

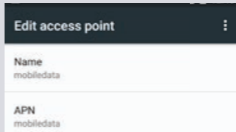

3. Select **Access Point Names (APN)**

4. Add a new APN by pressing **+** or menu key

5. Enter **'mobiledata'** as Name for APN. Select **Save** from the menu options

6. Select the new APN titled **'mobiledata'**

7. Go to **Settings > Data usage**. Ensure **Mobile (or Cellular) data** is switched on

For iPad and hotspot instructions visit: ekit.com/ekit/UserGuide

iPhone

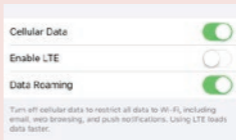

1. Select **Settings > Cellular Data (or Mobile Data)**

2. Ensure **Cellular Data (Mobile Data)** is **On** and **Data Roaming** is **ON**

3. Select **APN Settings**, and in the APN field enter **'mobiledata'**. Leave all other fields blank.

4. Press the menu button

5. Launch the internet browser

24/7 Customer Service
